## PROFESSIONAL SUMMARY

I am an experienced professional with a focus on cloud security. I have spent the last 5 years working on various projects that have allowed me to develop my skills in designing and implementing security solutions for cloud environments. I understand the importance of staying current with best practices and industry standards, and have a proven track record of success in identifying and mitigating security risks.

## WORK EXPERIENCE

2021-2023

**SENIOR ENGINEER /  
SECOPS  
STAXPAYMENTS**

- Led the implementation of security controls for AWS environments
- Implemented and maintained security solutions such as Security Groups, VPCs, and intrusion detection systems
- Conducted regular security assessments and vulnerability scans
- Worked closely with development teams to ensure compliance with security standards
- Developed and maintained security policies and procedures
- Trained and educated employees on security best practices

2020-2021

**SR. SOFTWARE ENGINEER  
WELLSKY**

- Led the deployment of security solutions such as WAF, IDS/IPS, and SIEM
- Implemented microservices architecture using .NET and ColdFusion, resulting in a 50% improvement in response times
- Worked closely with product managers and stakeholders to understand requirements and deliver features on time and within budget
- Mentored junior developers and helped them improve their skills

2019-2020  
**SR. CLOUD ENGINEER  
2ND WATCH**

- Architected and implemented a large-scale, highly available, and fault-tolerant system utilizing AWS
- Led migration of on-premise infrastructure to the cloud
- Developed automation and monitoring solutions to improve efficiency and reduce costs
- Provided technical leadership to a team of cloud engineers

2018-2020  
**INFRASTRUCTURE  
ENGINEER / SITE  
RELIABILITY ENGINEER  
SAMBA TV**

- Designed and implemented a disaster recovery plan for critical systems
- Led migration of on-premise workloads to the cloud
- Developed automation and monitoring solutions to improve efficiency and reduce costs
- Provided technical guidance to a team of site reliability engineers

## SKILLS

- Cloud Security: AWS, Azure, Google Cloud Platform
- Network Security: Security Groups, VPC, IAM
- Compliance Standards: PCI-DSS, HIPAA, SOC 2
- Monitoring and logging systems
- Cybersecurity
- Security Tools: Splunk, Nessus, Wireshark
- Programming Languages: Python, Bash
- Disaster Recovery, Business Continuity
- Leadership, Team Management
- Troubleshooting, Debugging

## CERTIFICATION

- AWS (expired)
- Security+ (active)
