Senior Application Security Engineer

Seasoned security engineer with extensive experience in application security, cloud security, and security automation. Expert in leveraging **Infrastructure as Code (IaC)**, **CI/CD pipelines**, and **containerization** to enhance security postures and drive efficiency. Proven track record in **cloud security posture management (CSPM)**, **application security posture management (ASPM)**, and **regulatory compliance** for diverse industries.

WORK EXPERIENCE

Private Company • 05/2024 – 08/2024
Security Consultant

- Transformed cloud security frameworks with **Terraform**, leading to a 25% boost in system efficiency and scalability.
- Conducted **penetration testing** and created a **web vulnerability dashboard** to monitor and address security flaws, successfully scaling security operations without a dedicated budget.

Commure • Remote • 02/2023 – 11/2023
Senior Application Security Engineer

- Developed and implemented a **Secure Software Development Life Cycle (SDLC)** using **GitHub Actions** and **Workflows**, enhancing risk mitigation and reducing software vulnerabilities.
- Led cross-functional initiatives to integrate **Application Security Posture Management (ASPM)**, decreasing security incidents and improving code quality.
- Enhanced compliance and security audit processes to align with **FedRAMP**, **HIPAA**, **HITRUST**, **ISO 27001**, and **PCI-DSS** standards, ensuring robust protection and compliance.
- Integrated **Dynamic Application Security Testing (DAST)**, **Static Application Security Testing (SAST)**, and **Interactive Application Security Testing (IAST)** into CI/CD workflows, bolstering software security and integrity.

Stax Payments • 10/2021 – 01/2023
Senior Security Cloud Engineer

- Progressed from Cloud Engineer to Senior Security Cloud Engineer, reflecting rapid professional growth and expertise recognition.
- Successfully led security audits, ensuring compliance with industry standards and bolstering the company's reputation for security excellence.
- Architected and managed scalable **cloud infrastructure** across AWS

CERTIFICATIONS

CompTIA Security+ ce Certification

AWS Certified Cloud Practitioner

VOLUNTEERING & LEADERSHIP

The University of Texas at Austin • 01/2021
Teaching Assistant

Lansing Linux User Group
LLUG - Project manager 2003-2005

TraceLabs

Trace Labs is a nonprofit organization whose mission is to accelerate the family reunification of missing persons while training members in the tradecraft of open source intelligence (OSINT).
